Welsh National Anthem Anthem Genedlaethol Cymru

Mae Hen Wlad Fy Nhadau

Mae hen wlad fy nhadau yn annwyl i mi,
Gwlad beirdd a chantorion, enwogion o fri;
Ei gwrol ryfelwyr, gwladgarwyr tra môd,
Tros ryddid gollasant eu gwaed.

Gwlad, Gwlad, pleidiol wyf i'm gwlad.
Tra môr yn fur i'r bur hoff bau,
O bydded i'r hen iaith barhau.

Fun Facts About Wales

Llanfairpwllgwyngyllgogerychwyrndrobwlllantysiliogogogoch

translated means:

Saint Mary's Church in the hollow of the white hazel near a rapid whirlpool and the church of Saint Tysilio of the red cave.

This village on the island of Anglesey has the longest place name in Europe!

The highest mountain in Wales is Snowdon.

Mount Everest, the highest mountain in the world was named after a Welshman.

Welsh is spoken by 20% of the population, concentrated mainly in the west of Wales. 90% of the population spoke Welsh as recently as 1850. The decline in Welsh language goes as far back as Henry VIII's Act of Union in 1536 which fixed English sovereignty over Wales. The use of Welsh for legal, administrative and business purposes was largely prohibited. From this time right up until the early part of the 20th century, Welsh was actively discouraged in education and government and English was seen as a route to well paid white collar jobs.

Welsh is the principal language spoken in 'Y Wladfa' (a Welsh settlement in Argentina) with sporadic speakers throughout Argentina by Welsh Argentines. The Welsh people first arrived in Patagonia in 1865 and had migrated to protect their native Welsh culture and language, which they believed was threatened in their native Wales.
